

## Concerns:

- ship waste: important source of marine litter
- Ships still depart EU with waste on board
- PRF-directive is implemented differently in MS and ports (Dutch study)

### A. Revision of PRF-Directive

1. Clarify and harmonize mandatory delivery, cost recovery systems etc.
2. Mandatory delivery for ships departing to non EU-destinations
3. Exchange of information

### B. Investigate measures with stakeholders:

1. Prevent waste on board
2. Awareness and enforcement
3. Ship ↔ prf/port interaction
